

Discover The Island

Brought to you by The Little Island

Your adventure starts by reading each **location clue**. Use the Map on the back of this handout to help you find Little Island's Design Treasures (structure, architecture, installations). After your discovery, draw the Treasures in the empty box on the right, or take a photo.

1.) Follow each **Location clue** to discover the **Treasures of Little Island!**

2.) Draw and color these **Treasures** in these blank boxes **OR** snap a photo!

4.) Draw and color the **Tulip Pots** in these blank boxes **OR** snap a photo!

6.) Draw and color the **Dedication Plaque** in these blank boxes **OR** snap a photo!

8.) Draw and color the **Spinning Disk** in these blank boxes **OR** snap a photo!

3.) Start under the South Bridge to discover the **Tulip Pots**

5.) Go towards the Play Ground to discover the **Dedication Plaque**

7.) Go towards The Northwest Overlook in to discover the **Spinning Disk**

Fun Fact: Little Island's structure consists of 132 concrete tulip pots. Each pot is unique and was fabricated in upstate New York. Little Island's structure was designed by architect Thomas Heatherwick.

9.) Take the path towards The Southwest side to discover The Amph

10.) Draw and color the The Amph in these blank boxes OR snap a photo!

11.) Continue towards The Glade to discover the standpipes for the firefighters

12.) Draw and color the standpipes in these blank boxes OR snap a photo!

 Fun Fact: Little Island's landscape was designed by Signe Nielson of MNL landscape.
